
Disruptive Students Policy (adults and juniors)

What happens when a student's behaviour stops others from learning, for adult and junior students.

Disruptive students disrupt the progress and learning of others in the class.

Adult students

- If an adult student is disruptive in class, the teacher will inform the Director of Studies or Assistant Director of Studies.
- If there is no improvement in the student's behaviour, they will be removed from class to ensure the learning of other students in the class can take place.
- In extreme cases, students may be expelled with no refund if there is no improvement in behaviour.

Junior students

- Junior students who are disruptive may be placed outside the classroom for 10 minutes, as long as the teacher can see them.
- The Director of Studies or Assistant Director of Studies will be told if a student is disruptive.
- If there is no improvement in the student's behaviour, they will be removed from class to ensure the learning of other students in the class can take place.
- Parents will be informed about junior students who are disruptive in class.
